Rosé

A rosé is a type of wine that incorporates some of the color from the grape skins, but not enough to qualify it as a red wine. It may be the oldest known type of wine, as it is the most straightforward to make with the skin contact method. The pink color can range from a pale "onion-skin" orange to a vivid near-purple, depending on the grape varieties used and winemaking techniques.

Rosé is very versatile as a food pairing; it can have the acidity of a white wine, but the fruit profile of a red wine. Leaner rosé is ideally suited to a summer salad, where as a fuller bodied rosé will work well with everything from pork belly to seared duck breast.

Try one with your dinner this evening!

Chateau Pétrus - Ex Cellars Collection

Pétrus is synonymous with the most luxurious and collectable of fine and rare wines. It is arguably the world's finest exponent of the Merlot grape, whose 1982 vintage reignited the desirability for Bordeaux after the doldrums of the late 1960s and '70s.

Pétrus is highly sought-after for its exceptional quality, age-worthy wines and its rarity. Production volumes are a fraction of those of the First Growths on the Left Bank, with approximately 30,000 bottles produced annually.

The 11.4-hectare vineyard is located on the highest area of Pomerol on a plateau dominated by iron-rich (crasse de fer) clay soils that give the wines their structure and power. They are well drained due to a gentle slope. The clay content retains some water which reduces hydric stress and creates a cooler microclimate that is ideally suited to the early ripening Merlot.

These three vintages were purchased directly from the Chateau and they were stored in the cellars of Chateau Pétrus, hence the authenticity of these bottles is non questionable.
